THANK YOU

Our sincerest appreciation Mary Miller for providing the outdoor fountain; and to Martha Beller for sharing the concrete bench and little girl that belonged to her sister, Margaret. Both of these are located in the Prayer Garden.

Is God your GPS?

Do you like to hike? Now realize that hiking is not just walking around

a track or taking a walk in your neighborhood. Hiking is getting outside and experiencing an area that is not really familiar to you and enjoying all of the fabulous creations given to us by God! Maybe animals will cross your path while hiking. Hiking in the mountains is awesome. Hiking near a lake or at the top of a cliff where you can see forever is a wonderful experience. There is hiking on a beach or in a cave. When you are hiking, you never know what you might see. You must always hike with others and make sure someone knows where you are. One of our church members and chairman of our deacons hikes almost every

week. Laura Bronn hikes with friends but sometimes she hikes alone. One of the most important things to bring with you on a hike is a map or a compass so you can find your way and stay on the right path. Getting lost is not good!

In the Bible the Israelites were guided with clouds in the daytime and fire in the sky in the night time. The Israelites had no idea where they were going. God led them through the desert so it would be impossible to get lost. Today, God does not guide us with clouds or fire in the sky, but he still guides us through other people that know him - your parents, your Sunday School teachers, and your church friends. The best map to follow through your life is God's word, the Bible! God will guide us through all of our trials of life if we let him. He wants us to be safe and to lead a life that is pleasing to him. Remember to Trust God, Bless Others, and Celebrate Grace!
